

QUALITY POLICY

— Parasmani Tubes Copper Pvt. Ltd.

Quality Management System — ISO 9001:2015

Document No: QP-01 | Version 1.0 | Effective: 01 April 2026

I. POLICY STATEMENT

Parasmani Tubes Copper Pvt. Ltd. is committed to the manufacture of copper tubes and copper tube fittings that consistently meet or exceed the requirements of our customers and of the applicable statutory and regulatory requirements.

Our copper tubes are certified to IS 10773 : 2025 under our BIS product certification licence, and are manufactured and tested in accordance with ASTM B280, ASTM B75, ASTM B68, ASTM B88, BS EN 13348 and JIS H 3300.

Quality is a responsibility shared across the entire organisation and throughout our supply chain. We achieve this through a documented and maintained Quality Management System that conforms to the requirements of ISO 9001:2015.

2. OUR COMMITMENTS

2.1 Customer Focus

- Understand and consistently meet customer requirements and applicable statutory and regulatory requirements.
- Respond promptly to customer concerns, non-conformances and feedback, and take effective corrective action.
- Maintain clear and transparent communication with customers on product specifications, lead times and quality performance.

2.2 Product & Process Quality

- Ensure all raw materials — copper cathode and mill berry copper — are sourced from approved suppliers and verified upon receipt.
- Maintain in-process controls at all manufacturing stages, including job-work operations, to prevent non-conformances.
- Subject all finished product, including job-work output, to dimensional inspection, non-destructive testing including eddy current testing, and final quality verification prior to dispatch.
- Maintain all measuring and test equipment under a documented calibration programme, with traceability to national or international measurement standards.
- Maintain full traceability from raw material to finished product through lot and batch identification.

2.3 Compliance & Product Conformity

- Manufacture in accordance with the terms of our BIS product certification licence and maintain that licence in good standing.
- Meet applicable statutory, regulatory and market requirements in every territory we supply, including the RoHS Directive.

- Ensure that all claims made on products, packaging, test certificates, data sheets and marketing material accurately reflect our current certification and licence status at the time of issue.

2.4 Continual Improvement

- Set, monitor and review measurable quality objectives at planned intervals.
- Conduct regular internal audits and management reviews to assess the effectiveness of the Quality Management System.
- Analyse non-conformances, customer complaints and process data to identify root causes and implement lasting corrective actions.
- Invest in the skills and competence of our personnel through training and awareness programmes.

2.5 Supplier & Partner Quality

- Evaluate and approve suppliers and job-work partners on the basis of their ability to meet Parasmani's quality requirements.
- Communicate quality expectations clearly to all supply chain partners and monitor their compliance.

3. SCOPE OF THE QUALITY MANAGEMENT SYSTEM

This Quality Policy applies to all activities within the following scope:

Element	Detail
Management system standard	ISO 9001:2015
Scope	Manufacture of copper tubes and copper tube fittings
Site covered	Plot 5/2, GIDC Estate, Umbergaon, Dist. Valsad, Gujarat – 396 171, India
Outsourced processes	Fitting forming operations are carried out by approved job-work partners using Parasmani's own manufactured, eddy current tested copper tube. These processes are controlled within the scope of our Quality Management System.
Product certification	BIS licence no. 7100071995 — IS 10773 : 2025
Document owner	Parasmani Tubes Copper Private Limited

Current certification status — including the name of the certification body, the certificate number and its validity — is evidenced by the certificate itself, which is held by the Company and made available to customers and other interested parties on request.

4. COMMUNICATION & AVAILABILITY

- This Policy is maintained as documented information and is available to all personnel.
- It is communicated at induction, reinforced through periodic awareness sessions, and displayed at the manufacturing site.
- It is made available to customers, suppliers, job-work partners and other interested parties on request.

5. REVIEW

This Quality Policy is reviewed at least annually by top management as part of the Management Review process, or sooner in response to significant changes in the business or its context. It remains in force until superseded by a subsequent revision.

All employees and relevant supply chain partners are made aware of this Policy and of their role in upholding it.
