Hard temper copper tubes are available in sizes up to 5 1/8" OD (Ø), wall thicknesses up to 10 SWG, and lengths up to 6 meters. For custom requirement, please contact our Sales Team.

Packaging Details

All pipes are clearly marked with Brand Name, Size, Batch Number, and carry two holograms for authentication.

Pipe ends are sealed with plastic end caps to prevent contamination and damage.

Bundles are supplied with four-layer protective packaging: Inner polythene wrap, protective cardboard layer, thick white plastic covering, and outer polythene wrap.

Each bundle is properly labeled with complete pipe specifications to ensure full traceability.
